Research Facilities

The intellectual creation of the human mind require protection, and as the Centre of Research for Development, we prioritise publications and intellectual material which ensures substantive academic value. Our faculties and students have been developing and publishing books and publications which have received the mark of a copyright. These materials have brought substantial value and have contributed to the academic knowledge bank. Annually, our efforts are dedicated towards providing the much needed support for such publications in the numerous streams of humanities, applied sciences, commerce, computer application and management Development. Research and development activities form the lifeline of a vibrant, forward-looking academic institution. Research Promotion committee and Consultancy play a vital role in Seva Sadan Mahavidyalaya's intellectual output by providing end-to-end support, from conceptualization to commercialization, of research ideas, by
